

## Kirklees Here 2 There Travel Training Project

The Kirklees Here 2 There Travel Training Unit (H2T) exists to offer person centred mobility training to individuals affected by disability or isolation who live in the Kirklees Metropolitan area. The Unit operates an equal opportunities policy that allows it to offer travel training to anyone, 14 years and above who has the need and willingness to learn and the commitment to succeed. The training is conducted on a one to one basis and follows an individual learning programme specifically designed to meet the particular requirements of each trainee.

***“We believe that safe, responsible, independent travel helps reduce the impact of exclusion on disadvantaged individuals and supports their integration into education, employment and society in general.”***

Travel training is the step by step process by which a person learns to travel a specific route, between two given places, on their own and in a safe and responsible way. This trip can be as simple as going to the local corner shop or as challenging as travelling to another town or city. Because all travel training involves an element of risk the training programme will be thoroughly planned well in advance and as far as possible take into account all the variables (or what if's) that might occur during the training period. Assessing these risks and making sure that all travel training is safe is **the** most important part of the work we do.
